EXPERIENCE

HAMMES, LINDGREN AND GORCZANY

07/2019 – present

Los Angeles, CA // *UI UX Designer*

- Solid experience with user-centric design (but know when to break the rules)
- Demonstrated expertise in designing clean, intuitive and innovative interfaces
- Proficient with industry standard programs
- Understanding of HTML and CSS
- Excellent interpersonal, business management, and developmental skills
- Self-sufficient, able to manage workload to meet project deadlines
- Knows what makes a design defensible to stakeholders and has a track record of pitching defensible design solutions to leadership
- Nice to have someone who has worked in large corporate enterprise space
- Looking for someone who has shepherded efforts from start to finish

CORKERY, HAND AND DECKOW

08/2016 – 06/2019

Los Angeles, CA // *UI UX Designer*

- Knowledge of After Effects & 3D tools like Maya, 3Ds Max is advantageous
- Have a solid understanding, and be an advocate of solid Information Architecture principles standards to be applied across the entire portfolio
- Experience can be demonstrated by a thorough portfolio that showcases problem framing, research, problem solving, and visualization skills
- BFA or MFA in Graphic Design or related field
- Experience with Design Thinking, UI/UX frameworks and design technologies, and Customer Discovery
- Knowledge of Agile software development practices and product management
- Experience with Jira/Confluence or other Agile software

EDUCATION

FASHION INSTITUTE OF TECHNOLOGY

Bachelor's in Design

SKILLS

- Great communication skills and presenting skills - Being up to date with design patterns and trends (a specially mobile IOS and Android)
- Good sense of aesthetic and experience with Design systems
- Adobe design suite (ie illustrator), InVision
- Experience building user flows, imagining future-state concepts, and creating both low-fidelity & high-fidelity interactive prototypes using Adobe XD - Experience considering & designing for multiple channels (App, responsive web, etc.)
- Experience working with an established design guide/visual design kit and updating from collaboration with other UI/UX designers and researchers, as well as Analytics team
